MAMBA MOUNT CONSOLE SIDE MOUNT

Jotto Desk™ is upgrading and simplifying your on-duty experience with the Mamba Mount, a console side mount designed to work in each zone; Store & Drive, Park & Work, and Tactically Safe.

425-0028/4138

The Mamba Mount's 12" Extruded Motion Arm smoothly rotates from the driver to the passenger side with minimal force, no levers or brackets needed. You can quickly move and reset the Mamba Mount from the home position to a comfortable working position. Pull the rear Indexing Plunger to release the laptop and slide it forward to a working position. When finished, simply reverse the process, pull the front indexing plunger and slide the laptop back to the home or store position. At full extension, the desktop tilts and swivels for the optimal working position. The Mamba Mount easily attaches to the majority of Jotto Desk Contour Consoles and any other standard console with side mount fittings and fits all Jotto Desk A-MOD Desktops.

CONSOLE SIDE MOUNT

The Jotto Desk Console Side Mount (CSM) features No Holes Drilled installation on the passenger side of a compatible equipment console, preserving front passenger side leg room and improving performance. The CSM offers a straight arm which enables you to comfortably use and secure a laptop using the A-MOD or other desktop.

425-5542/4143

The A-MOD is engineered to be lightweight, yet rugged. Manufactured from steel, high strength aluminum, and composite materials where it makes sense. It's not real security if a laptop can be simply be stolen by jimmying the lock or bending the clamps. The A-MOD features a high-security solid brass tubular lock and case-hardened steel clamps.

ZRT GUN RACK

The ZRT Gun Racks are designed for any configuration you can imagine. Partition mounted, Single Cell mounted, rear seat mounted or free standing, and rear hatch mounted - single weapon or dual.

- Eliminates 12V hot-wiring
- Cannot be defeated by magnets
- Zinc lock head design deforms instead of breaking
- Silicone inserts in lock head
- Protect weapon from damage
- Quickly adjust AR side along the strong extruded backbone to accommodate various stocks
- Single or dual weapon
- Plug and play lock head/timer wiring
- Compact size - 1/3 smaller than other lock heads
- Innovative slide latch recesses inside housing when accessing firearm

SPACE CREATOR BIDIRECTIONAL VEHICLE PARTITION

Keep officers and prisoners safe during transport using Jotto Desk™ Space Creator Vehicle Partitions. The Bidirectional Recessed Housing maximizes officer workspace and prisoner legroom, building an extra layer of protection for your officer. Jotto Desk Vehicle Partitions are engineered to save time and money, utilizing the OEM mounting points instead of drilling new holes. Jotto Desk originated the Space Creator Vehicle Partition (US Patent No. 8,690,216) to transform unusable space behind the front passenger seat into extra legroom, enough to accommodate your bulkiest prisoner.

475-0965

475-0966

40%
MORE VISIBILITY

HIGH SECURITY/HIGH VISIBILITY WINDOW

A High Security/High Visibility (HS/HV) Window gives officers the best of both worlds - tremendous sight lines, whether looking out the rearview or turning around. The 4" x 11" window allows for communication or passing of information but there won't be anyone that will squeeze through this opening. If a prisoner spits/bleeds/smears the window - it is still easily cleanable... not so with "expanded metal".

475-8848

HSEP

(HIGH SECURITY EXTENSION PANEL)

Enhance partition security by preventing rear passengers from reaching into the front of the vehicle under seats with a two-piece, steel High Security Extension Panel.

ABS SEATING

Jotto Desk™ realized the extreme challenge facing agencies in regard to the rear seat area of SUVs. The Jotto Desk solution, provides a complete SUV prisoner transport solution. The Replacement ABS Bio-Seat comes with all the hardware needed to remove the OEM seat and replace with a biohazard and contraband control system for easier transportation and clean up. Along with replacing the OEM seat, Jotto Desk is offering a Door Side Seat Belt System. This system places the buckle and tongue of the seat belt retractor system on the door side of the vehicle, rather than in the center of the vehicle. The obvious advantage to an officer is not having to reach across a prisoner, putting himself at risk during that interaction. As well, additional room is created for prisoner transport but not at the expense of the rear cargo area. That area is left untouched so that other manufacturers products will still fit properly.

475-1516

WINDOW ARMOR

You can now protect your vehicles while transporting prisoners with the Jotto Desk™ line of Window Armor. The Window Armor is easy to install, prevents side windows from being kicked out and limits reach in or out of the prisoner compartment. This item is designed for a perfect fit in the Dodge Durango Pursuit (2019+).

475-1417

SINGLE CELL

The Jotto Desk™ Single Cell Lite includes the Front Divider, Center Divider, and Rear Cargo Barrier (CB4). Jotto Desk realized the extreme challenge facing agencies concerning the rear seat area of SUVs. The bottom 2/3 of the Front Divider and Center Divider is powder-coated steel with a built-in HSEP for added prisoner foot room. We didn't want to give prisoners a birds-eye view of the "good guy" side of the vehicle when you don't have to. The upper 1/3 is polycarbonate and designed to allow for prisoner viewing/interaction, but not diminish the driver's view out the rearview mirror. In fact, the visibility for an officer is nothing short of amazing.

Keep your cargo where it belongs with the included the CB4 Prisoner Cargo Barrier. This design secures behind the second row of seats in the (2021+) Dodge Durango Pursuit utilizing OEM mounting points. No cutting of trim is required and very minimal drilling is necessary.

NOTE: CB4 Only Comes With Secure Grid

475-1765

CARGO BARRIERS

Separate the prisoner and the rear cargo areas securely with the Jotto Desk™ line of Cargo Barriers. Keep prisoners in their area and in case of a crash, keep your cargo where it belongs with the CB4 Prisoner Cargo Barrier. This design secures behind the second row of seats utilizing OEM mounting points, installs quickly and requires no vehicle modifications.

475-1173

475-0822

THE STASH

The Stash (Patent No.: US 11,554,772) was developed as a simple Single Weapon Storage Unit to be secured in the rear cargo area of a 2021+ Dodge Durango... while maintaining the majority of the cargo area for other storage needed in a patrol vehicle.

This unique and quick access solution comes standard with a padded, nylon scabbard to protect the weapon and help ensure optics stay true. The scabbard performs double duty by allowing officers/deputies to bring a black bag into their residence or a range vs. carrying an exposed patrol rifle.

475-1417

DEFEND IR

You take every available precaution to secure your patrol vehicle; firearms in the gun rack, locking equipment and doors. The inconvenient truth is that the criminal element has time on their side to bypass these precautions.

Jotto Desk is excited to introduce the Defend IR Security System. The first Security Solution against patrol vehicle break-ins. The Defend IR Monitors the interior of your vehicle utilizing an infrared sensor when armed. When a change is detected, the Defend IR activates the lights and siren of the patrol vehicle, alerting everyone nearby and scaring off a potential thief.
